

Secret Art Garden

What was once an open corn field, now Secret Art Garden is filled with big trees and colorful flowers. Secret Art Garden is a brainchild of a couple whose dream was to create a manmade forest on an empty land. Over 20 years have passed; we now witness the great the result of their work, a manmade forest with more than 10,000 trees.

Unlike any other natural or botanical gardens, "Secret Art Garden" is where the hidden beauty of art lies. Within and throughout the garden, plants cover and enhance artistic details, sculptures and other artwork which are featured. The "secrets" hidden within the walls of the garden are like treasure hidden away from prying eyes or time itself.

Today, we hand you the key to unlock the door to a place where art and nature blend harmoniously. Secret Art Garden serves as the destination where families and friends can enjoy and appreciate the beauty of nature together with artistic influence and splendor.

Dairy Home

Dairy Home was built on a desire to bring our customers the best dairy products in the most sustainable way. Our process starts at the source: we work with local family farms to foster organic ecosystems, free from synthetic chemicals, where dairy cows can thrive on their favorite food: grass. Our team then transforms the raw milk into wholesome dairy products, packed with nutritious value, using innovative, environmentally-conscious processes.

Dairy Home is proud to be a family business and a responsible social enterprise. We are driven by a passion for good food and a commitment to improving the health of our planet, our workforce, and our community. As Thailand's first organic dairy company, we continue to lead by example, striving to make our products tastier, our customers healthier, our team happier, our processes more sustainable and, if we're lucky, our world a little better.
